EDUCATION

Jaypee Institute of Information Technology

Bachelor of Technology in Computer Science and Engineering

Noida, India

May 2026

EXPERIENCE

Business Development Associate

June 2026 – Present

Apollyon Dynamics (Defence Technology Startup)

Hyderabad, India

- Served as point of contact for senior government and defence officials, building and managing long-term stakeholder relationships through regular, structured engagement
- Handled end-to-end documentation and compliance workflows on the GeM (Government e-Marketplace) portal, coordinating inputs across internal teams
- Represented the company at industry expos and exhibitions, engaging with visitors and institutional stakeholders on its behalf
- Created presentations, capability decks, and proposal documents that translated complex technical material into clear, audience-focused communication
- Worked directly with founders and engineering to bring stakeholder feedback and requirements back into product and strategy decisions

PROJECTS

Clickity | *Node.js, React, Tailwind CSS, AWS, GitHub Actions*

2025

- Launched and grew an interactive web app to 1,300+ users organically with no paid acquisition, iterating on the product based on usage patterns
- Deployed on AWS with automated CI/CD via GitHub Actions; implemented rate limiting to protect against malicious traffic and keep the app stable

MOOC Exam Prep Platform | *React* | mooc.doof.love

2026

- Built a quiz practice platform for MOOC exam preparation that drew 700+ unique visitors and peaked at 400 daily active users within a week of launch

Dead Poll | *Node.js, React, WebSockets, PostgreSQL, AWS EC2, Docker, Nginx*

2026

- Built and deployed a full-stack anonymous polling platform serving 300+ active users with real-time voting and live results via WebSockets
- Designed a PostgreSQL schema for concurrent voting with duplicate-vote prevention, and an anonymous auth system that protects privacy while preventing poll manipulation
- Containerized with Docker on AWS EC2 behind an Nginx reverse proxy, with CI/CD through GitHub Actions

Website for SMM Foundation (NGO) | *React, React-Bootstrap, JavaScript*

2024

- Designed and deployed a responsive website for an NGO, working directly with stakeholders to align it with the organization's mission and strengthen its digital presence
- Implemented secure form submissions and optimized for cross-device compatibility and accessibility

SKILLS

Sales & GTM: B2G engagement, stakeholder management, GeM documentation, proposal writing, presentations, event representation

Languages: C/C++, JavaScript, TypeScript, HTML/CSS, PHP

Frameworks & Technologies: Node.js, Express.js, React.js, TailwindCSS, WebSockets

Databases: PostgreSQL, MongoDB, MySQL

Tools: Git, GitHub, Docker, AWS EC2, Nginx, GitHub Actions, JWT, Cloudinary

Core Concepts: Data Structures, Algorithms, OOP, DBMS, Operating Systems, Multithreading

LEADERSHIP & ACHIEVEMENTS

Vice President, Debating Society: led a team of 60 members, coordinated debate events, and mentored peers in public speaking and critical thinking

Smart India Hackathon (SIH): selected in the Top 20 teams after clearing the college round
